

Per BEMING

Vice President, Standard & Industry Initiatives, Ericsson AB

Per Beming is Vice President and Head of Standards & Industry Initiatives based in Stockholm and reporting to Ericsson Group CTO. In this capacity he drives the technology leadership work in Standardization, and industry initiatives, including open source, for the Ericsson Group.

In previous roles Beming was responsible for Radio's 5G program targeting 5G RAN products and demos, in addition to driving the architecture at Business Area Networks. Beming has been Director of RBS Systems at Development Unit Radio, Business Unit Networks. Beming has also held a role of Expert in Radio Access Architecture at Ericsson Research and being the head of Ericsson's delegation to 3GPP RAN for WCDMA, HSPA and LTE standardization.

He is also engaged in [IOWN global forum](#) as a board of director. Beming is also an executive board of director in [HAPS alliance](#).

Beming joined Ericsson Research in 1994 and holds an M.Sc. in Applied Physics and Electrical Engineering (1994).
